## EDUCATION

### Lebanese University - Faculty Of Engineering

Beirut, Lebanon

Bachelor of Engineering – Telecommunication Engineering (GPA: 17.68/20)

Expected July 2026

- **Relevant Coursework:** Electrical Installation, Object Oriented Programming, Operations Research, Data Analysis, Microprocessors, Signal Theory, Linear Algebra, Probabilities and Statistics.

### Al Mustafa High School

Beirut, Lebanon

Lebanese Baccalaureate in General Sciences (GPA: 19/20)

August 2021

Overall rank on Lebanon: 8

## WORK EXPERIENCE

**Tutoring** in both one-on-one and one-to-many scenarios, for engineering and baccalaureate students.

## PROJECTS

**Echovibe**, designed and developed a social media application that runs on a local area network, using C#, WPF (Windows Presentation Foundation), and MySQL.

**Robotics**, built a sumo robot and a line tracking robot using Arduino.

**Water Thermodynamics Simulation**, developed a MATLAB-based thermodynamics simulation to analyze the state of water as influenced by temperature and pressure, while also computing various properties of the substance.

## COMPUTER SKILLS

**Programming Languages:** C/C++, C#, MATLAB, MySQL, XAML

**Applications:** Microsoft Visual Studio, Proteus 8, AutoCAD, Arduino, Packet Tracer, Microsoft Office

## CERTIFICATES

**Electronics level 1:** Certificate of Completion from AlSadek Scientific Association

**Cisco Certified Network Associate (CCNA1):** Certificate of Completion and Letter of Merit

## LANGUAGES

**Arabic:** MotherTongue

**English:** Fluent

**French:** Intermediate

## SOFT SKILLS

- Good Team Player
- Good Team Leader
- Time Management Skills
