Tripoli, Lebanon

A motivated and diligent computer science student with a passion for programming and web development. With a strong educational background in computer science, I have acquired a diverse range of skills that make me a valuable asset in the field. My expertise lies in programming, where I am proficient in various languages and frameworks. Also, I possess a solid understanding of web development, enabling me to create dynamic and visually appealing websites. Additionally, my knowledge of app development equips me with the ability to design and build user-friendly mobile applications.
