About me

I'm Sarah. A fourth year Computer and Telecom Engineering student interested in AI, machine learning, and fullstack web development, and I would like to apply my knowledge in a practical setting, working on real projects and learning from experienced professionals. I am eager to continuously improve my skills and stay up to date with the latest technologies so I'm looking for an internship

Education

2020 – present: Bachelor's in Electrical and Electronics Engineering at Lebanese University, Faculty of Engineering.

December 2023 – March 2024: Fullstack Bootcamp with [Techlarious Academy](#).

August 2023 – November 2023: Software Testing with [Digital Leaps](#)

2022 – 2023: CCNA1, CCNA2, CCNA3 via [Cisco Academy](#)

Skills

Soft Skills: Time management, leadership, teamwork, adaptability, problem-solving.....

Hard Skills:

- **Programming Languages:** C/C++, Java Script, C#, Python, Bash, Git, SQL, MongoDB
- **Frameworks:** Django, Express.js, ASP.NET, Plotly Dash, Tailwind CSS, Pytorch, Tensorflow
- **Libraries:** Scipy, Scikit learn, React

Experience

- March 2024 – May 2024:
Data Analyst intern at Teknologix Automation.
My role was to process and clean data, as well as to create interactive charts using Plotly Dash and Node.js.

- July 2023 – October 2023:
Django Backend Developer at ByteTactix
My responsibilities where to code web applications, design APIs, manage databases and deployment.

Projects:

- Store Management Project using C++ and Object Oriented Programming
- To Do App using Django Rest Framework
- Wireless Notice Board using ZigBee, Arduino and GSM
- MVC Winforms project using SQL and Entity Framework
- File Sharing project using C#
