

Mahdi Baydoun

COMPUTER SCIENCE STUDENT

Lebanon | 96171117507 | MahdiBayduon@gmail.com

Experience

Internship 2023:

During my front-end internship, I utilized JavaScript and TypeScript within the React framework, alongside essential libraries such as React-Router, Axios, Material UI, and Redux. I actively contributed to the development of significant project, playing a crucial role in building a specific component set to be integrated into the larger project slated for future release.

Knowledge

Front-end Experience:

- Advanced knowledge in Java, C#, HTML, CSS, JavaScript and TypeScript
- Basic knowledge in React framework and some libraries like (React-router, Redux, Material UI)
- Good understanding of Solid principles

Back-end Experience

- Basic knowledge in ASP.NET Core framework
- Some Experience in EF Core

Education

Lebanese International University (LIU)

Major: Computer Science | Graduate to be in 2024

Courses Taken

- Database
- Data Structure
- Object Oriented Programming
- Web Development
- Digital Logic
- Communication Skills
- Robotics

Side Projects

- Built a personal portfolio using (JavaScript, Html, CSS, Bootstrap).
