Mohamad Jawad Merhi

EDUCATION

BE OF TCE -TELECOMMUNICATIONS AND COMPUTER ENGINEERING AT LEBANESE UNIVERSITY - FACULTY OF ENGINEERING III

October 2020 – present

As a Telecommunication and Computer Engineering student at the Lebanese University, I've studied Networking, Telephony, Optical Networks, and Telecommunication Modulations. These courses have given me a comprehensive understanding of both theoretical and practical aspects of the field, preparing me for a successful career in the industry.

EXPERIENCE

INTERN AT NASCODE

August 2023

- Completed a comprehensive full stack training in .NET Framework utilizing ASP, VB, CSS, HTML, and JavaScript
- Developed forms and views for various company structures including Employees, Products, and Countries
- Designed a backend form to gather input for a frontend page, enabling dynamic and responsive display of data

PROJECTS

LOCAL NETWORK APP

- Completed a project in Network 2 course involving the development of a secure connection for multiple clients to a server using Socket API
- Implemented a Local License Manager (LLM) as the server and designed the client interface to display requests and responses in a chat bot format
- Demonstrated proficiency in networking principles and secure communication protocols through practical application in project completion

OBJECT ORIENTED PROGRAMMING

- Successfully completed numerous projects in various industries including banking, library services, tech shops, and prison systems
- Collaborated effectively with cross-functional teams to ensure project success
- Implemented innovative solutions to improve efficiency and deliver quality results
