# Ayman Kanso

Currently pursuing my studies in telecommunication and computer engineering, focusing my studies on Cybersecurity.

✉ aymankanso684@gmail.com   📱 +96171920312   📍 Beirut, Lebanon

EDUCATION

Computer and Communication Engineering
Lebanese University - Faculty of Engineering

2019 - 03   *Beirut*

Course
- Machine learning, Cryptography and network security, Computer networks

Computer Science student
Lebanese University - Faculty of Science

2021 - 03   *Nabatiyeh*

Courses
- web development, mobile development, database, GUI

PERSONAL PROJECTS

Spam Mail Prediction using Machine Learning with Python
- The Spam Mail Prediction project involves developing a machine learning model in Python to classify emails as spam or non-spam. It includes tasks such as dataset collection, preprocessing, feature extraction, and training a suitable algorithm for accurate classification.

Network Security Scanner
- A network security scanner, crafted with Python and a GUI, empowers users to probe network vulnerabilities with ease. Through intuitive interaction, it conducts comprehensive assessments, revealing potential security breaches and providing users with actionable insights for fortifying network defenses.

WORK EXPERIENCE

Network Security Intern
MTC Touch Lebanon

02/2024 - 04/2024

Achievements/Tasks
- Vulnerability Assessment and Penetration Testing, Cybersecurity Awareness

Network Engineer Intern
Engineering Gate Co.

08/2022 - 09/2021

A networking company that implements network infrastructure and Configure servers.

Achievements/Tasks
- Configuring Modems and switches - Network security - Servers configuration-problems troubleshoot

SKILLS

linux | System Administration | HTML | CSS | Javascript | Php | SQL | C | C++ | Python | Bash | Matlab | openssl (Encrypt/Decrypt) | c# | assembly(8085,8086,MIPS) | linux privilege escalation | TKinter(GUI)

CERTIFICATES

CCNAV7: INTRODUCTION TO NETWORKS Cisco
Cisco's Intro to Networks imparts foundational networking skills, covering architecture, protocols, and troubleshooting for IT entry-level roles.

CCNAV7: SWITCHING, ROUTING, AND WIRELESS ESSENTIALS Cisco
Cisco's Switching, Routing, and Wireless Essentials hones essential networking skills, crucial for IT professionals in a dynamic tech landscape.

CCNAV7: ENTERPRISE NETWORKING, SECURITY AND AUTOMATION Cisco
imparts crucial skills for managing secure, automated networks in a rapidly evolving IT landscape.

Network security Cisco
ensures expertise in safeguarding networks, employing robust strategies against cyber threats and vulnerabilities.

TCM SECURITY - PRACTICAL ETHICAL HACKING TCM Security
provides hands-on training, equipping individuals with practical skills in ethical hacking and cybersecurity

TCM SECURITY - PRACTICAL BUG BOUNTY
TCM's Bug Bounty course teaches practical skills in web app and network security, promoting responsible vulnerability disclosure.

TCM SECURITY - PRACTICAL API HACKING
TCM's Practical API Hacking course teaches hands-on skills for identifying and exploiting API vulnerabilities, enhancing web security expertise.

TCM SECURITY - PRACTICAL WEB HACKING
TCM's Practical Web Hacking course provides hands-on training to identify and mitigate web vulnerabilities, enhancing cybersecurity proficiency
