SUMMARY

Passionate Web Developer specializing in Laravel for backend development, React for frontend, RESTful APIs, and MYSQL. With a solid grasp of HTML, CSS, and JavaScript, I've actively contributed to projects aimed at inspiring and educating users. Leveraging my experiences, including a notable internship at XpertBot, I've honed my skills to craft effective solutions that drive positive outcomes. My dedication to continuous learning ensures that I stay at the forefront of web development trends and technologies..

PROFESSIONAL EXPERIENCE

Backend Developer

Intern, XpertBot – Estonia (remote) | November 2023-May 2024

- Developed responsive and user-friendly websites using Laravel, Restful APIs, and JSON during my recent internship.
- Ensured bug-free interface for users, focusing on smooth and fast data processing.
- Increased API throughput by 20%, optimizing data delivery efficiency.
- Acquired practical knowledge in software development best practices, version control using Git, and working within an agile team environment.

Frontend Developer

Intern, Ogero – Beirut (hybrid) | May 2024-Present

- Provided interactive charts using chart.js for data analysis
- Enhanced my frontend skills through working in React & Typescipt .

Personal Projects

XpertCheck:

XpertCheck is an innovative web application meticulously crafted using Laravel, designed to streamline employee management within firms. With its intuitive interface, XpertCheck simplifies the check-in and check-out process, providing seamless tracking of employee attendance. Empowering administrators, XpertCheck offers robust functionalities to effortlessly add, manage, and update employee profiles, clients, and projects. Whether monitoring workforce attendance or organizing project assignments, XpertCheck ensures smooth operations, enhancing efficiency and productivity within the organization.
