PROFILE

Currently in my last semester ending in June studying Computer Systems Engineering while self-studying MERN Stack and DevOps. Proficient in React, NextJs, Node, Express, REST APIs, Firebase Version Control, and implementing CI/CD pipelines on AWS using Jenkins and GitHub Actions also having knowledge of working with Firebase. With 1.5 years of hands-on-experience with MERN Stack development, I am passionate and eager to apply skills and continue learning professionally.

PROFESSIONAL EXPERIENCE

Virtual Internship Front End Engineering Job Simulation   04/2024 – 05/2024
Blackbird Australia
Worked on frontend development project using ReactJs

EDUCATION

BSc in Computer Systems Engineering   11/2020 – 06/2024
University of Engineering and Technology Peshawar   Peshawar, Pakistan
CGPA : 3.3

PROJECTS

HelpSolutions Application - MERN Stack 🔗
Design and Implemented a complete MERN Stack web application with an admin dashboard experience. It's backend REST API along with fetching data from backend for displaying in frontend .Users can see all the services provided on the application and can use contact form as a means of communicating with the admin and also implemented JWT authentication.

SocioNet Application - MERN Stack 🔗
Designed a MERN Stack social media application developing it's backend API along with JWT authentication using middlewares, Redux toolkit for state management and Material UI for styling implementing features like liking post, adding a friend, unfriending, get a posts feed on home page and persoonalized posts too

MovieMania - MERN Stack 🔗
Design and implemented a MERN Stack application in which I developed it's backend API, fetching data from the backend for the frontend using ReactJs and also designed it's UI. Users can post their own favorite movies along with banner image upload. Users can also see their own personalized movies and edit and delete them I also implemented JWT authentication and email sending functionality to the registered user

Hotel Booking Application - MERN Stack 🔗
Worked on MERN Hotel Booking application's backend logic, JWT authentication, cookies management, context API and fetching data from Backend API.

SKILLS

MERN		Redux/Redux toolkit/Next Js/Tailwind CSS
Git/Version Control		
		AWS/Docker/Jenkins/CICD/ GitHub Actions

CERTIFICATES

- Meta Advanced React - Coursera 🔗
- Meta Version Control - Coursera 🔗
- Meta Front End Developer Specialization - Coursera
